

SURVEILLANCE

CONSISTENT, HIGH-QUALITY RESULTS FOR OUR CLIENTS ON EVERY ASSIGNMENT

Every VRC investigator undergoes the same comprehensive in-house surveillance training featuring a rigorous two-week course at our Dallas headquarters followed by a week of closely supervised field training before they ever touch your case.

We take care to station our investigators in strategic locations throughout all 50 states so that no surveillance assignment is ever beyond our reach. Supported by our proprietary case management system and expansive investigative resources, we're always ready to deploy localized rapid response to your case, no matter where you need us to go, anywhere in the U.S.
